

3D perception PZ30X

3D PERCEPTION PZ30X

Brief Introduction

Beta 2.5

The standard portable PZ30X DLP has 3000 Ansi lumens, a contrast of 1600:1 and an XGA 1024 x 768 resolution. An image width of up to 477 cm is possible as the projector has 3000 Ansi lumens. However, if room light is available, the picture should be max. 318 cm wide. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. At 28 decibels, the projector is very quiet compared to other projectors. This model is no longer offered by 3D perception, but is still a popular projector in our database.
