3M Moviedream

Brief Introduction Beta 2.5	The 3M Moviedream home cinema DLP projector has 800 Ansi lumens, a contrast of 400:1 and an SVGA 800 x 600 resolution. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. 800 Ansi lumens ensure that a picture width of 246 cm is also possible. However, if room light is available, the picture should be a maximum of 164 cm wide. It is no longer offered by the manufacturer 3M.
