Eleoption UC40

Brief Introduction Beta 2.5	The micro-portable UC40 LED LCD projector from Eleoption has 696 Ansi lumens, a contrast of 800:1 and a WVGA 800 x 480 resolution. The manufacturer specifies an LED service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. Including an integrated media player with which files can be played directly. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As Eleoption specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 696 Ansi lumens ensure that a picture width of 268 cm is also possible. However, if room light is available, the picture should be a maximum of 179 cm wide. The projector has optional Airplay, Miracast Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via WLAN. The model is also Full HD 1080P compatible. On the market since 2017, the model is no longer offered by the manufacturer Eleoption, but is still a popular projector in our database.
