Acer VL7860

Brief Introduction Beta 2.5	With the VL7860, manufacturer Acer offers a home cinema DLP laser projector with 4KESHIFT 2716 x 1528 4,150,048 pixel resolution and a contrast of 1500000:1. It is a laser projector with 20000 hours of light life, which is over 13.7 years with a daily viewing of 4 hours. Includes a lens shift function, which provides freedom during installation. The projector can illuminate an image width of up to 556 cm thanks to its 3000 Ansi lumens. In room lighting, however, the picture width should ideally be less than 371 cm. Even 1080P and 4K video signals are no problem for the projector. At just 30 decibels, the device is one of the quieter projectors. This model is no longer offered by Acer.
