Optoma W416

OPTOMA W416

Brief Introduction Beta 2.5	With the W416, manufacturer Optoma offers a DLP projector with WXGA 1280 x 800 resolution and a contrast of 20000:1. Thanks to the brightness of 4200 Ansi lumens, an image width of 658 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 439 cm). A smartphone with an MHL connection can be connected directly to the MHL/HDMI port for 1080p / 60 Hz screen mirroring. Even 1080P video signals and 3D are no problem for the projector. The projector was launched in 2016 and is no longer sold by the manufacturer.
