Brief Introduction Beta 2.5	A brief introduction to the X605e: The Optoma 3D BrilliantColor DLP projector offers 6000 Ansi lumens, a contrast of 2000:1 and an XGA 1024 x 768 resolution. Including a lens shift and keystone correction function, which provides freedom during installation. Thanks to the brightness of 6000 Ansi lumens, a picture width of 675 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 450 cm). Video signals 1080P and 3D are also no problem for the projector. The projector was launched in 2017 and is no longer sold by the manufacturer.
