BOXLIGHT is Proud to Announce the XP-8t:
A Presenter-Friendly XGA Projector Perfect for the Budget Conscious

Class B certified projector offers extensive features coupled with a super lightweight package that won't break the bank

Poulsbo, WA—***BOXLIGHT's new XP-8t*** LCD projector fuses affordability with portability while maintaining the quality features necessary to help presenters perform at the top of their games. With an MSRP of $3,399, the XP-8t is the perfect solution for corporate presenters, educators and road warriors who want the most value for their dollar.

Weighing in at just ***6.17 pounds***, the XP-8t can be easily packed alongside a laptop, making it ideal for the presenter on the move. A lightweight stature, however, doesn't mean features have been compromised. This small-but-sure projector boasts ***true 1024 x 768 XGA resolution (compressed 1280 x 1024 SXGA)***, assuring compatibility with most of today's laptops. In addition, the lights don't have to be dimmed during a presentation with the XP-8t's ***1100 ANSI lumens***.

Attention to detail is what the XP-8t does best! With ***DRIT (Digital Realized Interpolation Technology)***, the XP-8t creates a resolution "free" environment by expanding (SVGA) or compressing (SXGA) the image and digitally reconstructing the picture for clean, crystal-clear results every time.

Save on lamp life with the XP-8t's ***power management function***, which shuts off the lamp after five minutes if no signal is being received.

This ***FCC Class B certified*** unit is not only a great choice for business use, but for video applications as well. With ***HDTV compatibility***, the XP-8t benefits from the sharpest broadcast and television signals available, while ***component video input*** allows for the best video quality possible.

Rounding out a long list of features is ***digital keystone adjustment***, which can "square-up" an image on the screen. The XP-8t also offers ***digital zoom imaging***, allowing presenters to enhance a portion of the screen at the touch of a button, while the ***manual zoom/focus*** makes presenting in variable room conditions a breeze.

BOXLIGHT's XP-8t is a sophisticated unit that, while effortlessly portable, packs quite a punch. Brimming with state-of-the-art features, this projector means business! With a manageable price tag, the XP-8t is the choice for busy presenters on the go.

BOXLIGHT sells display and projection technology under it's own brand of ***BOXLIGHT Certified™*** equipment, as well as the most innovative, high quality products from trusted brands such as InFocus, Hitachi, Sony, Proxima and Epson. The company also offers professional services to enhance every aspect of presentations from content development to the finishing touches. ***BOXLIGHT's Creative Services*** division can assist presenters in polishing existing presentations, animating company logos and developing full-blown professional presentations from scratch.

BOXLIGHT, in partnership with American Express Equipment Finance, also offers a convenient Web-based leasing program with low monthly payments, flexible terms and purchase options. With fast online credit approval, a leased unit can be shipped out the same day.

BOXLIGHT is one of the world's leading distributors of digital presentation equipment, presentation development services and training. With humble origins in a basement in 1985, BOXLIGHT operations have expanded to encompass sales in the United States, Canada and worldwide. The company has been listed in *Inc*. magazine as one of the ***"Fastest Growing Private Companies in America,"*** and one of the 500 fastest growing technology companies in the United States by Deloitte & Touche.

BOXLIGHT's award-winning projectors are consistently selected as among the ***"Best New Products of the Year"*** by some of the most influential computer and audio/visual publications in the nation. Projector specifications, photographs, prices and additional information regarding BOXLIGHT products and services are available online at **www.boxlight.com**, or call (800) 762-5757 (USA) or (360) 779-7901 (International).
