McIntosh MDLP2

MCINTOSH MDLP2

Brief Introduction Beta 2.5	A brief introduction to the MDLP2: The McIntosh DLP projector offers 850 Ansi lumens, a contrast of 15000:1 and HDTV 1920 x 1080 resolution. The projector can illuminate a picture width of up to 296 cm thanks to the 850 Ansi lumens. In room light, however, the image width should ideally be less than 197 cm. Playing 1080P is also no problem for the projector. The model built in 2009 is no longer offered by McIntosh, but is still very popular in our projector database.
