Optoma ZW340e

A brief introduction to the Optoma ZW340e. The DLP laser projector has a WXGA 1280 x 800 resolution and a contrast of 300000:1. Due to the laser, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours of use. An image width of up to 610 cm is possible as the projector has 3600 Ansi lumens. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 407 cm. The model is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector.

Brief Introduction
Beta 2.5

Display Type
1 x DLP Chip
WXGA 16/10 Ti Digital Light Processing Chip
