

aao YG381

A A O Y G 3 8 1

The YG381 LED LCD has 250 ANSI lumens, a contrast ratio of 20000:1 and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light lifespan of up to 30,000 hours, which would be over 20.5 years with a daily viewing time of 4 hours. A picture width of up to 161 cm is possible. However, the picture should be smaller in room light. We recommend a maximum of 107 cm. Since the projector recognises DLNA, Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Playing 1080P is also no problem for the projector.
