

AAXA HP2 Halloween

AAXA HP2 HALLOWEEN

Brief Introduction

Beta 2.5

With the HP2 Halloween, manufacturer AAXA offers an LED projector with HDTV 1920 x 1080 resolution. It is an LED projector with 15000 hours of light life, which converts to over 10.3 years at 4 hours of use. The projector also offers an integrated media player that can be used to play files directly. 100 Ansi lumens ensure that a picture width of 102 cm is also possible. However, if room light is available, the picture should be a maximum of 68 cm wide. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Even 1080P video signals are no problem for the projector. It was launched in 2021 and is no longer offered by the manufacturer AAXA.
