

AAXA P300

AAXA P300

Brief Introduction

Beta 2.5

With the P300, manufacturer AAXA offers a DLP LED projector with WXGA 1280 x 800 resolution and a contrast of 2000:1. The manufacturer AAXA specifies a service life of 15000 hours, which is over 10.3 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. A picture width of up to 176 cm is possible. However, the picture should be smaller in room lighting. We recommend max. 117 cm. Playing 1080P is also no problem for the projector. It was launched in 2012 and is no longer offered by the manufacturer AAXA.
