AAXA P4X Pico

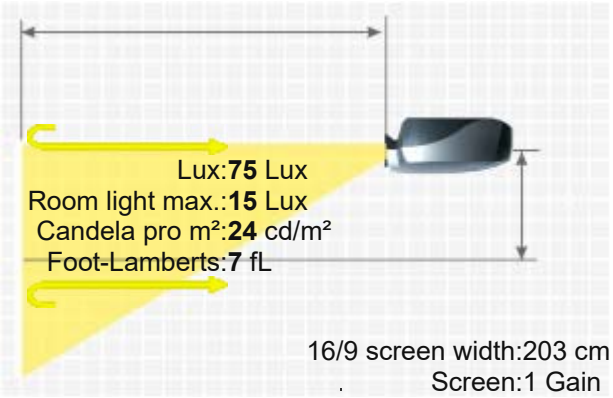

Brief Introduction Beta 2.5	The P4X Pico LED DLP has 175 Ansi lumens, a contrast of 2000:1 and a WVGA 858 x 484 resolution. The manufacturer specifies an LED service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The integrated media player can play files directly. 175 Ansi lumens ensure that a picture width of 134 cm is also possible. However, if room light is available, the picture should be max. 89 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The projector was launched in 2017 and is no longer sold by the manufacturer.
Display Type	1 x DLP Chip WVGA 16/9 Ti Digital Light Processing Chip
