| Brief Introduction<br>Beta 2.5 | The FunFlix model A1 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 25000:1. The manufacturer specifies an LED service life of 30000 hours, which converts to over 20.5 years at 4 hours per day. An image width of up to 269 cm is possible as the projector has 700 Ansi lumens. However, if room light is available, the picture should be a maximum of 179 cm wide. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers.
