

Acer H6816ABD

ACER H6816ABD

Brief Introduction

Beta 2.5

A brief introduction to the H6816ABD: the Acer Standard Portable 3D DLP projector offers 4000 ANSI lumens, a contrast ratio of 10000:1 and a UHD (4K2K) 3840 x 2160 resolution. The lamp life is specified by the manufacturer as 12,000 hours, which is over 16.4 years at two hours of enjoyment per day. An image width of up to 643 cm is possible. If the image width is smaller (we recommend max. 429 cm), rooms with low light are also no problem. The model optionally recognises Airplay and Miracast screen mirroring signals, making it possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The projector can also play 1080P and 4K. At just 27 decibels, the device is one of the quieter projectors.
