Specifications

Model name	Acer P1101
Projection system	DLP®
Display panel	0.55" DarkChip™ 3 DMD
Resolution	Native SVGA (800 x 600) Maximum UXGA (1600 x 1200), 1080p (1920 x 1080)
Aspect ratio	4:3 (native), 16:9
Contrast ratio	4000:1
Brightness	2700 ANSI lumens (standard), 2160 ANSI Lumens (ECO)
Lamp life	5000 hours (standard), 6000 hours (ECO)
Projection lens	F = 2.41 – 2.55, f = 21.79 mm – 23.99 mm
Throw ratio	50" @ 2 m (1.95 – 2.51:1)
Keystone	+/-40 degrees (vertical), manual and auto
Noise level	28 dBA (standard), 25 dBA (ECO)
Input interface	Analog RGB/Component Video (D-sub), composite video (RCA), S-Video (mini DIN), HDMI® (video, audio, HDCP), PC audio (stereo mini jack)
Output interface	Analog RGB (D-Sub)
Dimensions	269 x 206 x 84 mm (10.6" x 8.1" x 3.3")
Weight	5.2 lbs. (2.34 kg)

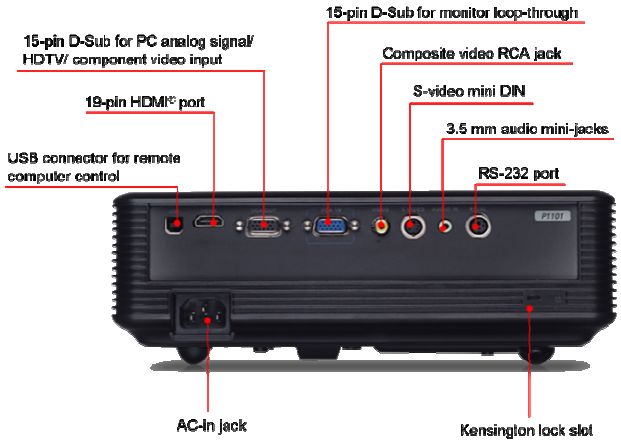

Feature Highlights

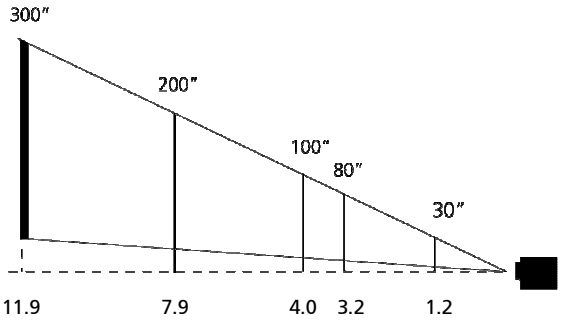

Captivating visuals
- Acer ColorBoost
- Acer SpectraBoost
- Acer ColorSafe II
- SVGA (800 x 600) resolution
- 2700 lumens brightness
- 4000:1 contrast ratio
- 3X color-wheel rotation speed
- DLP® 3D Ready

Installation versatility
- Installation menu
- Acer Top-Loading Lamp design
- +/-40º vertical keystone correction
- HDMI® digital connectivity
- D-Sub input

Empowering usability
- Acer Empowering Technology
- Acer SmartFormat
- Smart Detection
- Quick Start
- Instant Pack
- Built-in speaker

Earth-caring functionality
- Acer EcoProjection
- 1 W power consumption in standby mode
- ECO mode
- Up to 6000-hour lamp life
- Automatic safety shutdown

Acer ColorBoost
Acer ColorBoost is an advanced technology that refines waveform to improve color performance based on lamp spectrum and color wheel properties. ColorBoost II+ (1) improves natural color temperature to achieve optical color balance, and (2) enhances color brightness according to content by working with Acer eView Management, which provides scenario modes with a color-specific refined waveform.

Acer SpectraBoost
Delivers outstanding color saturation for truly vivid and colorful image quality. A wider color gamut via patented color wheel coating technology boosts color saturation an extra 30%.

Acer ColorSafe II
Acer projectors featuring ColorSafe II are virtually immune to color decay, such as the yellow or green tint on images displayed by some projectors that have been used for extended periods of time. Acer projectors take advantage of DLP® technology to guarantee picture integrity despite prolonged use. Extended lifespan and consistent image quality lower total cost of ownership and translate to big savings.

Acer EcoProjection
Acer EcoProjection is a complete environment-friendly power management solution that reduces standby power consumption by up to 50%, from 5 W to 1 W. Also featured in the Acer EcoProjection suite is Acer ePower Management for customized power-saving configurations.

About Acer
Since its founding in 1976, Acer has achieved the goal of breaking the barriers between people and technology. Globally, Acer ranks No. 2 for total PCs and notebooks. A profitable and sustainable Channel Business Model is instrumental to the company's continuing growth, while its multi-brand approach effectively integrates Acer, Gateway, Packard Bell, and eMachines brands in worldwide markets. Acer strives to design environmentally friendly products and establish a green supply chain through collaboration with suppliers. Acer is proud to be a Worldwide Partner of the Olympic Movement, including the Vancouver 2010 Olympic Winter and London 2012 Olympic Games. The Acer Group employs 7,000 people worldwide. 2009 revenues reached US$17.9 billion. See www.acer-group.com for more information.
