Acer P1185

ACER P1185

Brief Introduction Beta 2.5	The Acer model P1185 is a DLP projector with SVGA 800 x 600 resolution and a contrast of 20000:1. The lamp life is specified by the manufacturer as 4000 hours, which is over 5.5 years with a daily viewing time of 2 hours. 3200 Ansi lumens ensure that a picture width of 493 cm is also possible. However, if room light is available, the picture should be max. 329 cm wide. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Playing 1080P and 3D is also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. This model is no longer offered by Acer, but is still a popular projector in our database.
