Acer P1502

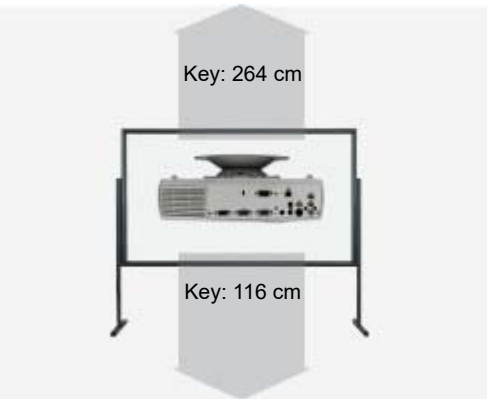

Brief Introduction Beta 2.5	A brief introduction to the P1502: The Acer 3D BrilliantColor DLP projector offers 3400 Ansi lumens, a contrast of 16000:1 and an HDTV 1920 x 1080 resolution. The manufacturer Acer specifies a lamp life of 10000 hours, which converts to over 13.7 years at 2 hours per day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. A picture width of up to 592 cm is possible. However, the picture should be smaller in ambient light. We recommend max. 395 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port for 1080p / 60 Hz image mirroring (screen mirroring). Video signals 1080P and 3D are also no problem for the projector. The model built in 2016 is no longer offered by Acer.
