METAvision CHT 728

Brief Introduction Beta 2.5	A brief introduction to the CHT 728: The METAvision home cinema DLP projector offers 1000 Ansi lumens, a contrast of 5000:1 and HDTV 1280 x 720 resolution. The integrated lens shift gives freedom when positioning the projector. Thanks to the brightness of 1000 Ansi lumens, a picture width of 321 cm is possible. In room light, the image should be a maximum of 214 cm wide. The projector was launched in 2006 and is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
