Microvision SHOW WX+

The SHOW WX+ projector from Microvision has 15 Ansi lumens, a contrast of 5000:1 and a WVGA 848 x 480 resolution. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. The projector was launched in 2010 and is no longer sold by the manufacturer, but is still a popular projector in our database.

Brief Introduction

Beta 2.5

Display Type	[redacted]		
Ansi-Lumen	Projector: 15	Screen: 7 Lux (200 cm Screen width)	
Contrast	5000:1 full on/off	5000:1 full on/off
