Acer P5627

Brief Introduction Beta 2.5	The standard portable Acer P5627 3D BrilliantColor DLP projector has 4000 Ansi lumens, a contrast of 20000:1 and a WUXGA 1920 x 1200 resolution. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. An image width of up to 643 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Video signals 1080P and 3D are also no problem for the projector. It was launched in 2016 and is no longer offered by the manufacturer Acer.
