Acer P6505

Brief Introduction Beta 2.5	The standard portable Acer P6505 3D DLP projector has 5500 Ansi lumens, a contrast of 20000:1 and a HDTV 1920 x 1080 resolution. The built-in lens shift and keystone correction function provides freedom when adjusting the projection. Thanks to the brightness of 5500 Ansi lumens, a picture width of 753 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 502 cm). The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. Playing 1080P and 3D is also no problem for the projector. The projector was launched in 2022 and is no longer sold by the manufacturer, but is still very popular in our projector database.
