Optoma EX539

The EX539 3D BrilliantColor DLP projector from Optoma has 3000 Ansi lumens, a contrast of 10000:1 old: 3000:1 and an XGA 1024 x 768 resolution. The projector can illuminate a picture width of up to 477 cm well thanks to the 3000 Ansi lumens. In room light, however, the image width should ideally be less than 318 cm. 1080P playback is also no problem for the projector. With only 30 decibels of operating noise, the model is already very quiet compared to others. This model is no longer offered by Optoma.
