Acer PD727

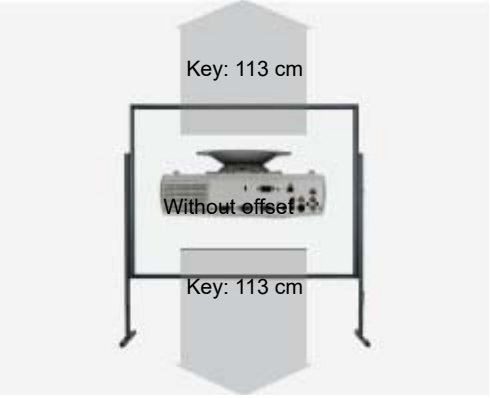

Brief Introduction Beta 2.5	The Acer PD727 model is a DLP projector with XGA 1024 x 768 resolution and a contrast of 2500:1. The projector can illuminate a 551 cm wide picture well. Rooms with residual light can be created by the projector with a smaller image width, we would recommend a maximum of 367 cm here. Playing 1080P is also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. The model built in 2007 is no longer offered by Acer.
