RHTP200

All-in-One Home Theatre Projector

RELISYS

MODEL SHOWN: **RHTP200 Projector**

RHTP200: Big Screen Entertainment on a Whole New Scale

With the RELISYS RHTP200, big screen entertainment at home just got a whole lot more impressive. This is not just a high quality DLP projector, the RHTP200 is also a DVD player, TV and media card reader all in one. It even has wireless 2.1 speakers as a standard accessory.

The projector itself has an 1700 ANSI lumens brightness and a contrast ratio of 2000:1 – in non-technical speak that means you have the finest, most detailed imagery in home cinema projectors.

Plus on a purely practical level, as an all-in-one unit, the RHTP200 has the added benefit of removing all those wires and multi-unit clutter from your living space!

Sound Thinking

You'll love the full, rich sound that's a hallmark of the RHTP200. The two wireless speakers can handle up to 25w per channel for plenty of response and power, plus you can easily add surround sound via the unit's 5.1 outputs.

Terrific TV

The big match, a network premiere, a favourite soap – whatever your favourite TV show it's a whole new experience on the big screen! The RHTP200 includes a TV tuner, with progressive scan technology so you get an impressive picture of the highest quality.

Well Connected

You can connect up anything from your camcorder to a games console with the RHTP200. Input and output options include 5.1 surround sound, S-Video, Video and DVD component, so whatever the source, you get the very biggest picture.

Smile – You're on the Big Screen!

Even your digital photos or home movies can get big screen exposure with the RHTP200. That's because there's a media card player built-in, and it can read a wide variety of card types and file formats.

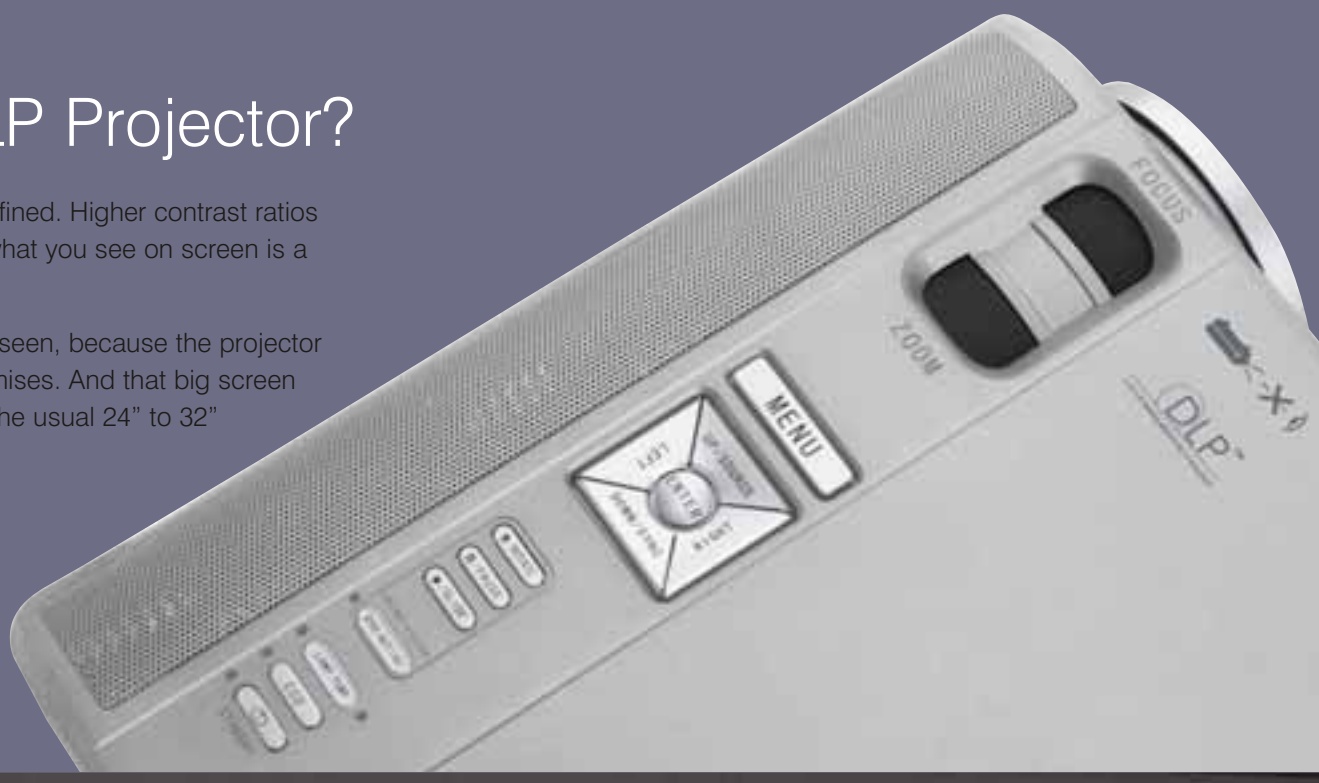
A built-in DVD Player

The DVD player is neatly tucked away in the base of the unit, and thoughtfully integrated so you find it easy to access and use. The player doesn't just handle DVDs, it's able to read other formats too, such as CDs and MP3s. With the RHTP200 you're thoroughly geared-up for the digital revolution.

What's so special about a DLP Projector?

DLP (Digital Light Processing) makes projected images crisp and well defined. Higher contrast ratios and lower pixelation combine with a four-segment colour wheel, so that what you see on screen is a faithful representation of the source.

You can enjoy all films and programmes the way they're supposed to be seen, because the projector reproduces normal and wide-screen formats – no squeezes, no compromises. And that big screen really is big! It projects up to 300 inches, which is somewhat larger than the usual 24" to 32" screens most TVs are limited to.



Specification

Display Technology Signal 0.70" DDR DMD 1024 x 768

Resolution 1280x1024 (SXGA) Compression, 1024x768 (XGA) / 800x600 (SVGA) / 640x480 (VGA) / Mac

Brightness 1700 ANSI Lumens

Contrast Ratio 2000:1

Screen Size (diagonal) Adjustable from 35" to 300"

Projection Range 1.5m – 10m

Colour Wheel 4 Segmentations RGWB

Zoom Ratio 1.2:1 with Zoom lens (F/2.8~3.1)

Digital Zoom Max. X32 for XGA mode

Projection Lamp 250w lamp life: 2000 hours (normal mode) / 3500 hours (Eco mode)

Digital Keystone Correction +/- 12 degrees (vertical)

Projection Modes Left/right and top/bottom

Front Elevation / **Maximum Tilt Angle**
Up to 15 degrees / 45 degrees up and down

Scanning Frequency Automatic frequency control
Horizontal: 15 – 82kHz, Vertical: 50 – 85 Hz

Noise Level 32dBA

Input Signals RGB Analogue, Composite Video, S-Video, DVD Component, RF TV Tuner, Audio L/R, PC Audio

Computer Input RGB Analogue, 15 Pin D-Sub

Composite Video RCA

S-Video Mini-din 4 pin

DVD Component Y, Pb/Cb, Pr/Cr

RF TV Tuner VHF/UHF, Coaxial 75 ohms

Audio L/R RCA x 2 (R/L)

PC Audio Mini-Jack

Output Signals RGB Analogue (monitor out), Audio Out, 5.1 Surround Sound Audio Out (left, right, surround left, surround right, sub woofer, centre)

Monitor Out RGB Analogue, 15 Pin D-Sub

5.1 Surround Sound Audio Out
3.5mm Mini-Jack x 3, (L/R/SL/SR/SW/C)

Audio Out 3.5mm Mini-Jack x 1: (5.1Audio out see above spec)

Video Compatibility
HDTV: 480i, 480p, 576i, 576p, 720p, 1080i
NTSC: M (3.58MHz), 4.43MHz
PAL: B, D, G, I, M, N
SECAM: B, D, G, K,K1, L

Built-in Speaker 2w x 1

Wireless Speaker Stereo 25w x 2, Dimensions (wxdxh): 170x180x270mm (6.7"x7.1"x10.6"), Weight: 8.35kg

Power Supply 100-240v, 50-60 Hz

Power Consumption 330w

Built-in DVD Player Slot-in Type DVD, VCD, CD, Interactive VCD, S-VCD, MP3, JPEG file, 5.1 Channels output

Media Player
Support Memory Card Type: CF/SM/MD/MS/SD/MMC
Support Media Type: JPEG, MJPEG, MPEG1, MPEG2, MP3

Remote Control Projector/Media Player/DVD player/TV Tuner all in one

Regulations EMC – FCC Class B, CE Class B, CCC, Safety – cUL, TUV, CB

Dimensions (wxdxh) 374 x 290 x 92mm (14.7"x11.4"x3.6")

Net Weight 4.5 kg (10lb)

Standard Accessories Power Cord, VGA Cable, Audio Cable, Remote Control, 25w x 2 Wireless Speakers
