The Acer XL1220 laser DLP projector has 3100 Ansi lumens, a contrast of 2000000:1 and an XGA 1024 x 768 resolution. The manufacturer Acer specifies a service life of 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. The projector can illuminate a picture width of 485 cm well. If room light is available, however, the picture width should ideally not exceed 323 cm. Furthermore, the projector can play 1080P without any problems and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection.
