STREX SP281

Brief Introduction Beta 2.5	The STREX SP281 micro-portable LED LCD projector has 900 ANSI -lumen and an HDTV resolution of 1920 x 1080. The manufacturer states an LED lifespan of 30,000 hours, which, based on four hours? daily use, would equate to over 20.5 years. As the projector features horizontal and vertical keystone correction, it can be positioned with plenty of space around it in the room. As STREX specifies the projector?s brightness in lumens, we have calculated an approximate ANSI lumen value in this case. As the projector supports AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The projector also has no problem playing 1080p and 4K (compressed) content.
Display Type	1 x LCD Panel HDTV 16/9 Liquid Crystal Display
Ansi-Lumen	Projector: 900 / 15000 Lumen — Screen: 400 Lux (200 cm Screen width)
