Alvar V800P Pro

Brief Introduction
Beta 2.5

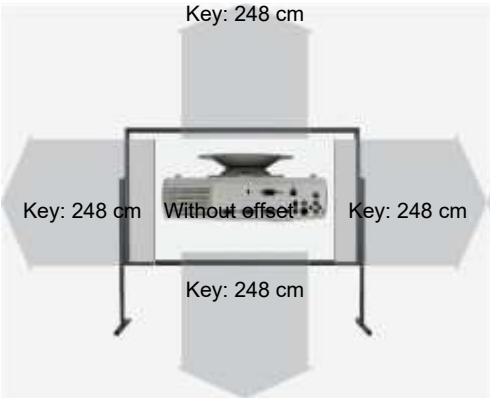

Brief introduction to the Alvar V800P Pro. The standard portable LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 30000:1. The LEDs have a service life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. The horizontal and vertical keystone correction allows the projector to be set up very freely. An image width of up to 321 cm is possible, as the projector has 2000 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 214 cm wide. The projector supports Airplay and Miracast screen mirroring, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The projector can also play 1080P and 4K (compressed) content without any problems.
