Aopen AV10a

AOPEN AV10A

Brief Introduction Beta 2.5	The Game-Portabel AV10a LED DLP has 150 Ansi-Lumen, a contrast of 10000:1 and a WVGA 854 x 480 resolution. The lifespan of the LEDs is 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. A picture width of up to 124 cm is possible. However, the picture should be smaller in room light. We recommend max. 83 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. Even 1080P video signals are no problem for the projector. With only 30 decibels of operating noise, the model is already very quiet compared to others.
