

Appotronics AL-FU905A

APPOTRONICS AL-FU905A

The AL-FU905A 3D laser DLP projector from Appotronics has 9000 Ansi lumens, a contrast of 100000:1 and a WUXGA 1920 x 1200 resolution. The service life is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. Includes a lens shift and keystone correction function, which provides freedom during installation. 9000 Ansi lumens ensure that a picture width of 964 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 643 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. It is also Full HD 1080P and 3D compatible. Even projection onto the ceiling is possible thanks to the 360° projection.
