ASK Proxima C421

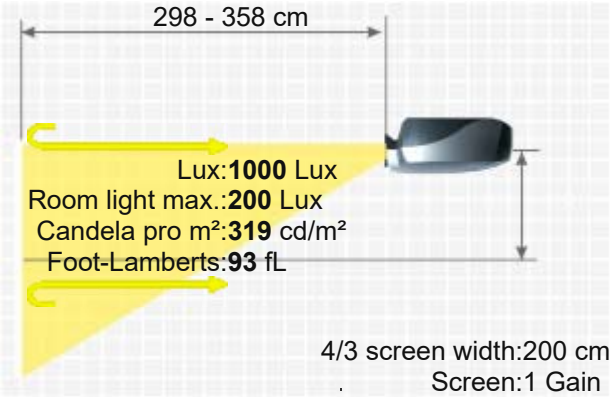

3LCD | Edge Blending | Netzwerk | USB

Brief Introduction Beta 2.5	A brief introduction to the C421: The ASK Proxima LCD projector offers 3000 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. The lamp of the projector is specified with 4000 hours lamp life, which is over 5.5 years with a daily viewing time of 2 hours. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. The projector can illuminate an image width of up to 477 cm thanks to its 3000 Ansi lumens. In room lighting, however, the picture width should ideally be less than 318 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. On the market since 2014, the model is no longer offered by the manufacturer ASK Proxima.
