ASK Proxima C510W

3LCD | Edge Blending | Lens Shift | Netzwerk | USB

Brief Introduction Beta 2.5	The ASK Proxima model C510W is an LCD projector with WXGA 1280 x 800 resolution and a contrast of 5000:1. Includes a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 718 cm is possible as the projector has 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 479 cm. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. It was launched on the market in 2014 and is no longer offered by the manufacturer ASK Proxima.
