

AuKing Smart Projector

The home theater smart projector LED LCD has 800 ANSI lumens and an HDTV 1920 x 1080 resolution. The LEDs give the projector a lifespan of 30,000 hours of light, which is over 20.5 years at four hours of use per day. 800 ANSI lumens ensure that an image width of 287 cm is possible. However, if room light is present, the image should not exceed 191 cm in width. The projector supports Airplay, Miracast Screen Mirroring, which allows high-resolution videos and surround sound from smartphones, tablets and PCs running Android, Windows or iOS to be played directly via Wi-Fi. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Playing 1080P and 4K (compressed) is also no problem for the projector.
