A brief introduction to the EAZZE D1 Pro: The Aurzen LED LCD projector offers 350 ANSI lumens and HDTV 1920 x 1080 resolution. The LEDs give the projector a light lifespan of up to 30,000 hours, which is the equivalent of over 20.5 years at 4 hours a day. Horizontal and vertical keystone correction makes image setup a breeze. An image width of up to 190 cm is possible because the projector has 350 Ansi-Lumen. However, if room light is present, the image should not be wider than 127 cm. The model optionally recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
