

Aurzen ZIP

AURZEN ZIP

The Aurzen model ZIP is a DLP LED projector with HDTV 1280 x 720 resolution and a contrast of 300:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would be over 20.5 years with 4 hours of viewing per day. The projector will be able to illuminate a 102 cm image width well. If room lighting is available, however, the image width should not exceed 68 cm. The built-in 5000 mAh (1.5 h playtime) battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The projector can also play 1080P and 4K (compressed) without any problems.

Brief Introduction Beta 2.5

Display Type

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
