With the Data 3300, manufacturer Barco offers an LCD projector with SVGA 800 x 600 resolution and a contrast of 150:1. The projector will be able to illuminate a screen width of 348 cm well. However, if room light is available, the picture width should ideally not exceed 232 cm. It was launched in 1999 and is no longer offered by the manufacturer Barco. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
