Brilens TL1024

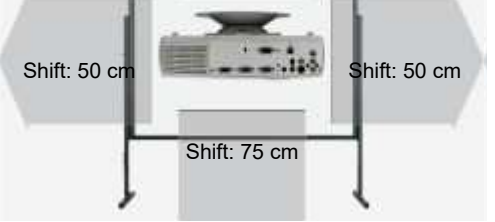

Brief Introduction Beta 2.5	The Brilens model TL1024 is an LCD LED projector with XGA 1024 x 768 resolution and a contrast of 50000:1. The service life of the LEDs is 50000 hours, which is over 34.2 years if enjoyed for four hours a day. With the lens shift function, the projector can be positioned very freely. As Brilens specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 126 cm image width, the projector will be able to illuminate well. If room light is available, however, the picture width should ideally not exceed 84 cm. Playing 1080P is also no problem for the projector.
Display Type	3 x LCD TFT Panel XGA 4/3 Liquid Crystal Display
Projector: Ansi-Lumen	210 / 3500 Lumen
Projector: Contrast	50000:1
Projector: Black Level	0,0042 min. Lumen
Screen	70 Lux (200 cm Screen width)
Screen	50000:1
Screen	0,001 min. Lumen
