Canon Rayo i8

Wi Fi Integriert | Pocket | LED

Brief Introduction Beta 2.5	The Canon Rayo i8 model is an LED projector with WVGA 854 x 480 resolution and a contrast of 400:1. The manufacturer Canon specifies a service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. The projector will be able to illuminate a picture width of 102 cm well. However, if room light is available, the picture width should ideally not exceed 68 cm. Thanks to the built-in 1,700mAh battery, no power supply is required, which means that the projector can be set up quickly and flexibly. This model is no longer offered by Canon, but is still a popular projector in our database.
