

Christie HD405

CHRISTIE HD405

The Christie HD405 BrilliantColor DLP projector has 4100 Ansi lumens, a contrast of 7500:1 and a HDTV 1920 x 1080 resolution. The built-in lens shift and keystone correction function provides freedom when setting up. 651 cm picture width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 434 cm here. Even 1080P video signals are no problem for the projector. At just 30 decibels, the device is one of the quieter projectors. The model built in 2007 is no longer offered by Christie.
