A brief introduction to the LW400: The Christie LCD projector offers 4000 Ansi-Lumen, a contrast of 1000:1 and a WXGA 1280 x 800 resolution. The built-in lens shift and keystone correction function provides freedom when setting up. An image width of up to 643 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by Christie.
