

Christie LWU900-DS

CHRISTIE LWU900-DS

The short-throw LWU900-DS 3D laser LCD projector from Christie has 8000 Ansi lumens, a contrast of 4000000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer specifies a laser service life of 20000 hours, which would be over 13.7 years with a daily viewing time of 4 hours. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. Playing 1080P and 3D is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2019, the model is no longer offered by the manufacturer Christie, but is still very popular in our projector database.

3 x 0,76" LCD TFT Panel
