

CineVersum CV35GTV

CINEVERSUM CV35GTV

The CV35GTV 3D LED DLP home theater projector has 2,200 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the projector has a lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours per day. The built-in ambient light sensor detects ambient light in the room and automatically optimizes the image. An image width of up to 477 cm is possible thanks to the projector's 2,200 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 318 cm. Google TV transforms the projector into a smart entertainment center with countless features. The model supports AirPlay, Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. It is also compatible with Full HD 1080p and 3D.

1 x 0,47" DLP Chip
