Davis DL 450 MKII

Brief Introduction Beta 2.5	The Davis DL 450 MKII DLP projector has 575 Ansi lumens, a contrast of 450:1 and an SVGA 800 x 600 resolution. 575 Ansi lumens ensure that a picture width of 209 cm is also possible. However, if room light is available, the picture should be a maximum of 139 cm wide. The model built in 1999 is no longer offered by Davis. It should also be noted that, unfortunately, there are no longer any replacement lamps available for the projector, neither originals nor replicas.
