

DIPIKPRJ 1300ANSI

DIPIKPRJ 1300ANSI

Brief Introduction

Beta 2.5

A brief introduction to the DIPIKPRJ 1300ANSI. The standard portable LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 20000:1. The LEDs give the projector a lifespan of 30,000 hours of light, which is over 20.5 years at four hours of use per day. Since the projector has horizontal and vertical keystone correction, it can be set up in a room with plenty of space. 1300 ANSI lumens ensure that an image width of 366 cm is also possible. However, if room light is present, the image should not be wider than 244 cm. The model recognises Airplay and Miracast Screen Mirroring signals, making it possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. Another extra worth mentioning is the Bluetooth function, which allows the projector to be connected to external wireless speakers. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.

Display Type

1 x 6" LCD Panel
HDTV 16/9 Liquid Crystal Display
