Dreamvision starts the Inti 3 Tentation

Inti3 "Tentation" (Tentation is French word for temptation) is a limited edition in a faux Bronze finish, obtained with a process whereby atoms are ejected from a solid target material due to bombardment of the target - the Inti chassis - by energetic particles.

This technique, used in the luxury goods industry for thin-film deposition, gives a stunning final result.

Inti3 "Tentation" is a superior technology inside an exquisite Paris *Haute-Couture* design.

New exclusive distributor in Russia

CTC CAPITAL – one of the leading distributor companies in the Russian market in the segment of video and audio, presentational equipment and accessories - has recently become the official Dreamvision agent for Russia, Ukraine, Belorussia and Kazakhstan.

CTC CAPITAL, founded in 1992, also accomplishes servicing, selection and custom installation of the whole delivered equipment. Service of audio- and video equipment lease is given.

Alike Dreamvision, all of the CTC CAPITAL partners-manufactures are leaders in their respective areas.

The new Inti 3D projector was officially introduced in Russia during the recent Premium Hifi and home Theatre show in Moscow.

Dreamvision at Munich High-End show

Our partner AUDIO INT'L GmbH, headquartered in Frankfurt am Main, hosted a gorgeous white Inti projector on its booth at the Munich High-End show in May 2011 and received visit of Dreamvision's CEO Mr Jean-Claude Younes.

Mr Hermann Hoffmann [info@audio-intl.com]

Dreamvision. L'équipe de Dreamvision encadre le vidéo-projecteur Inti 2 que nous avons testé dans le n°54. Le distributeur allemand de Dreamvision a un grand respect pour toutes les améliorations apportées à ce vidéoprojecteur de très haut de gamme dont les dernières versions couvrent aussi, avec les lunettes actives, les applications du cinéma en relief en haute définition.
