3LCD Media Player RGB USB

Brief Introduction Beta 2.5	The Dukane ImagePro 8768 model is an LCD projector with XGA 1024 x 768 resolution and a contrast of 400:1. The integrated media player allows files to be played directly. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. A picture width of up to 477 cm is possible. However, the image should be smaller in room light. We recommend max. 318 cm. Playing 1080P is also no problem for the projector. The model built in 2004 is no longer offered by Dukane.
