Excelvan Z720

Brief Introduction Beta 2.5	The Excelvan model Z720 is an LCD LED projector with WXGA 1280 x 768 resolution and a contrast of 1000:1. The service life of the LEDs is 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The built-in lens shift function provides freedom when adjusting the projection. As Excelvan specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. An image width of up to 143 cm is possible. In room light, however, the image should be smaller. We recommend max. 95 cm. Video signals 1080P are also no problem for the projector. The model is no longer offered by Excelvan.
