

Epson EB-1460UT

EPSON EB-1460UT

The Epson model EB-1460UT is an LCD projector with WUXGA 1920 x 1200 resolution and a contrast of 16000:1. The manufacturer specifies a lamp life of 10000 hours, which is over 13.7 years with a daily viewing time of 2 hours. Including an integrated media player with which files can be played directly. The horizontal and vertical keystone correction provides leeway when setting up. The model offers a microphone jack plug and 16W speakers, so no additional audio devices are required for presentations or training courses. An image width of up to 674 cm is possible, if the image width is smaller (we recommend max. 449 cm), rooms with residual light are also no problem. The projector offers an interactive whiteboard function for interactive training courses and presentations. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Playing 1080P is also no problem for the projector. The projector was launched in 2017 and is no longer sold by the manufacturer, but is still very popular in our projector database.

Brief Introduction

Beta 2.5

Display Type

3 x 0,67" LCD TFT Panel mit MLA

WUXGA 16/9 Liquid Crystal Display with Micro Lense Array
