Epson EB-L210W

Brief Introduction Beta 2.5	The EB-L210W 3D laser LCD has 4500 Ansi lumens, a contrast of 2500000:1 and a WXGA 1280 x 800 resolution. The lifespan of the laser is 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. An image width of up to 682 cm is possible, if the image width is smaller (we recommend max. 455 cm), rooms with residual light are also no problem. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. It is also Full HD 1080P and 3D compatible, meaning it can even project Blu-rays onto the ceiling using 360° projection.
Display Type	3 x 0,59" LCD TFT Panel WXGA 16/10 Liquid Crystal Display
Ansi-Lumen	Projector: 4500 / Screen: 1800 Lux (bei 200 cm Screen)
