# Epson EB-L695SE

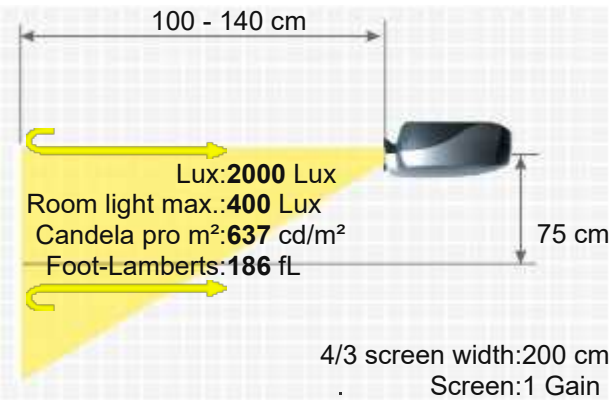

EAN/UPC:8715946737911

A brief introduction to the EB-L695SE: the Epson short-throw laser LCD projector offers 6000 ANSI lumens and a UHD (4K2K) 3840 x 2160 resolution. Thanks to the laser, the projector is specified with a 30,000-hour light lifespan, which is over 20.5 years with four hours of use per day. This projector has a projection ratio of just 0.5:1. For a 2-meter-wide image, the projector only has to be 100 cm away from the screen. If the image is still too small, the projector offers integrated edge blending software that allows multiple projectors to project a large image together. The projector has Miracast Screen Mirroring support, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via Wi-Fi. Furthermore, the projector can play 1080P and 4K without any problems, and can thus project Blu-rays even onto the ceiling thanks to the 360? projection.
